

WALK-INS

SPORTS & ENTERTAINMENT

ALWAYS READY FOR THE SPOTLIGHT.

Operators in the sports and entertainment sector praise American Panel products for their maximum functionality and real value — whether it's supporting beverage service at stadiums and racetracks or servicing high-traffic food concessions at theme parks, zoos and arenas. Details like surface-mounted beer taps and glass doors add aesthetic appeal while helping showcase products and drive sales.

Many arenas or stadiums utilize large warehouse coolers and freezers for their bulk food and beverage storage while also using multiple smaller concession coolers throughout the remainder of the facility. No matter the configuration, our team has the capability and experience to install the cold storage solution that's right for your venue.

So whether space is at a premium or it's reliability you're looking for, American Panel is ready to help you keep your customers coming back again and again.

A HISTORY OF GETTING IT RIGHT.

American Panel walk-ins have long been recognized for their reliable performance, lasting durability and exceptional value. Each cooler, freezer and refrigerated building is consistently delivered in spec, on schedule and within budget.

To ensure product quality, walk-ins are designed with the help of our experienced sales and engineering team. Our entire production staff is dedicated to zero-defect manufacturing throughout the facility, and every unit is pre-assembled in its entirety at the factory before shipping. This extra step guarantees that your system will function properly at your site, every time.

Count on the experience and craftsmanship of American Panel to get it right on your next project. You'll feel the quality the moment you walk in.

A NAME YOU CAN TRUST.

Since our founding in 1963, customers have relied on American Panel for our friendly and efficient customer service, thoughtful product design and superior craftsmanship. Our consistent, fair and honest way of doing business sets the benchmark for the industry today.

We understand that the sports and entertainment market is fast-paced, high-pressure and there's no turning back when it's showtime. That's why American Panel stands behind everything we build, giving you the confidence to serve your customers like champions.

MAKE AMERICAN PANEL QUALITY YOUR VERY OWN.

Every walk-in unit we manufacture is built to spec using superior materials, and is available with a wide selection of door locations and overall sizes. Within your fully custom configuration, you can choose from a variety of features and accessories that suit your specific needs. When your walk-in is complete, you'll have the perfect balance of efficient insulation, cost-saving operation and maximized capacity.

At American Panel, we're not just committed to building the best walk-in on the market. We're driven to build the best walk-in for you.

... Take a look at what makes American Panel a true leader in the industry.

... Metal finishes, available in a wide variety of easy-to-clean colors and textures, provide for an attractive appearance and ultimate durability

... Available in standard sizes or custom configurations with a full complement of application-specific accessories

... 4"-thick foamed-in-place urethane construction provides superior insulating values, structural rigidity and total compliance with all nationally recognized building codes

DEPENDABILITY.

AT THE HEART OF EVERY WALK-IN WE BUILD.

American Panel's complete line of energy-efficient refrigeration equipment is designed for easy installation and reliable performance. Capacities for each system are adjusted for specific ambient temperature, altitude and product load. Plus, our indoor or outdoor units are supplied with a wide selection of site-specific controls and accessories, and come standard with a five-year compressor warranty.

... Fiberglass reinforced polymer (FRP) door and frame perimeter is corrosion-proof, impact-resistant and will not absorb moisture

... Standard on every unit, our multi-functional and fully programmable walk-in monitoring system helps safeguard your products while controlling energy consumption

WALK-INS

ENVIRONMENTALLY FRIENDLY.

At American Panel, we are proud of our commitment to environmental sustainability. Through partnerships established with our valued customers and vendors, we will continually strive to manufacture products that comply with state and federal environmental standards, minimize environmental impact and conserve energy. Through pioneering advances in insulation technology, the utilization of more energy-efficient refrigeration components and effective waste management, we will remain dedicated to making responsible manufacturing a top priority.
